11 Definitions

- 11.1 In this Policy defined terms will be in accordance with Softball Australia's Constitution unless otherwise defined.

Australian Representative is a member of an Australian open team for a sanctioned event that was selected and participated. Note that this excludes players or officials that withdraw prior to the tour or event. In this instance they would not be credited with a national appearance, issued with a cap or representative number.

Cap is defined as a player appearance in an offensive or defensive inning at a sanctioned event.

Debuts are where a player selected in an open men's or open women's Australian team in the starting line-up or on the bench in a sanctioned event for the first time.

International Event includes:

- A WBSC World Championship
- An Olympic Games

- A Softball Australia recognised event, which consists of one or more national federation teams competing against a recognised and approved Australian open team. It is acknowledged that development teams and tours occasionally occur and for these activities, caps and numbers will not be allocated.

An international event where an Australian team does not participate, but where Australian umpires or statisticians are appointed by Softball Australia or the WBSC, will be considered to be a recognised international event for the purposes of representative numbers and caps for those members.
